1. Nature of Operations

Galway Gold Inc. ("the Company") was incorporated pursuant to the Business Corporations Act (New Brunswick) on May 9, 2012, and continued to the Province of Ontario on August 11, 2015. The Company's head office is located at 82 Richmond Street East, Toronto, Ontario, M5C 1P1. The Company was incorporated for the sole purpose of participating in the Plan of Arrangement (the "Arrangement") announced October 19, 2012 involving the Company, Galway Metals Inc., Galway Resources Ltd. ("Galway"), AUX Acquisition 2 S.à.r.l ("AUX") and AUX Canada Acquisition 2, formerly 2346407 Ontario Inc. ("AUX Canada"), a wholly owned subsidiary of AUX. Prior to the close of the Arrangement, the Company did not carry on any active business.

On January 21, 2013, the Company's common shares commenced trading on the TSX Venture Exchange under the symbol "GLW".

The Company was in the process of exploring the Vetás Project and has not yet determined whether the mineral properties contain mineral reserves that are economically recoverable. The continuing operations of the Company and the underlying value and recoverability of the amounts shown for mineral properties are entirely dependent upon maintaining a license to operate, the existence of economically recoverable mineral reserves, the ability to obtain the necessary financing to complete the exploration and development of the mineral property interests and on future profitable production or proceeds from the disposition of the mineral property interests.

On February 24, 2016, the Colombian Constitutional Court (the "Court") published a ruling, which deemed certain provisions to the National Development Plan (Law 1753) issued in July, 2015, in respect of exemptions to mining operations in areas of Colombia considered to be páramos (high altitude eco-systems) to be unconstitutional. Prior to the Court's ruling, mining titles issued before 2010, such as the Vetás Project were allowed to continue to mine. As a result of the Court's unfavourable ruling, mining in all páramo eco-systems throughout the country were declared to be damaging to the páramos and to the water supply. As such, all mining and petroleum operations in the páramos were ordered to stop. Moreover, according to the ruling, the Company will not be able to transfer title of the Reina de Oro project and the mining permit will no longer be valid. The ruling is currently under appeal, the ultimate resolution of the case is unknown.

In March 2018, Company engaged in discussions with the Ministry of Commerce and the Agency for the Defense of the State to settle the damages for the loss of the Reina de Oro project. In order to further protect its claim, the Company announced that it filed an application for arbitration under the Canada-Colombia Free Trade Agreement ("FTA") to preserve Galway Gold's rights under the FTA. Discussions between the government and the Company are ongoing.

2. Accounting Policies

Statement of Compliance

These unaudited condensed interim financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by IASB and interpretations issued by IFRIC. These unaudited condensed interim consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements for the year ended December 31, 2021.

These unaudited condensed interim consolidated financial statements were authorized for issuance by the Board of Directors of the Company on August 29, 2022.

2. Accounting Policies (Continued)

Basis of Presentation

These unaudited condensed interim consolidated financial statements have been prepared on a historical cost basis, except for financial instruments which are measured at fair value. In addition, these consolidated financial statements have been prepared using the accrual basis of accounting except for cash flow information.

In the preparation of these unaudited condensed interim consolidated financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of expenses during the period. Actual results could differ from these estimates.

Basis of Consolidation

These consolidated financial statements incorporate the financial statements of the Company and its wholly owned subsidiaries, Galway Resources Vetás Holdco Ltd. (Cayman Islands), Galway Resources Vetás Holdco Ltd. Sucursal Colombia and Galway Gold US Inc. All intercompany transactions, balances, income and expenses are eliminated upon consolidation.

3. Resource Property

As part of the Arrangement, the Company acquired the option to earn a 100% interest in the Vetás Project and assumed the contracts to secure land packages in the Vetás-Surata gold region in the state of Santander, Colombia as described below. As of June 30, 2022 and December 31, 2021, there were no outstanding payment obligations under the agreement.

The Company has the option to earn 100% of the Reina de Oro concession, the Vetás Project, by paying 1.5% of the gold value of measured and indicated gold resources and will not be encumbered by further royalty commitments.

In January 2014, the Company exercised its right to acquire the Vetás Project. The total option exercise price was approximately US \$4.3 million. The Company was advised that the counterparty to the Reina de Oro Option Contract rejected the exercise of the option. The Company sought arbitration of this matter pursuant to the terms of the Option Contract. On February 13, 2015, the Company received a favourable ruling and was awarded damages of approximately \$490,000. As the ultimate collection of the judgement is uncertain, no contingent asset has been recorded in these financial statements.

On February 24, 2016, the Colombian Constitutional Court (the "Court") has published a ruling, which deemed certain provisions to the National Development Plan (Law 1753) issued in July, 2015, in respect of exemptions to mining operations in areas of Colombia considered to be páramos (high altitude eco-systems) to be unconstitutional. Prior to the Court's new ruling, mining titles issued before 2010, such as Reina de Oro, were allowed to continue to mine. As a result of the Court's new unfavorable ruling, mining in all páramo eco-systems throughout the country were declared to be damaging to the páramos and to the water supply. As such, all mining and petroleum operations in the páramos were ordered to stop. Moreover, according to the new ruling, the Company will not be able to transfer title of the Reina de Oro project and the mining permit will no longer be valid. The ruling is currently under appeal, the ultimate resolution of the case is unknown. Based on the underlying uncertainty, the Company recorded an impairment charge of \$895,282 on its Vetás project as at December 31, 2015.

9. Commitments and Contingencies

Due to the worldwide COVID-19 “COVID-19” outbreak, material uncertainties may come into existence that could influence management’s going concern assumption. Management cannot accurately predict the future impact COVID-19 may have on:

- Global gold prices;
- The severity and the length of potential measures taken by governments to manage the spread of the virus and their effect on labour availability and supply lines;
- Availability of essential supplies;
- Purchasing power of the Canadian dollar; and
- Ability to obtain funding

The outbreak of the novel strain COVID-19 has resulted in governments worldwide enacting emergency measures to combat the spread of the virus. These measures, which include the implementation of travel bans, self-imposed quarantine periods and social distancing, have caused material disruption to businesses globally resulting in an economic slowdown. Global equity markets have experienced significant volatility and weakness. Governments and central banks have reacted with significant monetary and fiscal interventions designed to stabilize economic conditions. The duration and impact of the COVID-19 outbreak is unknown at this time, as is the efficacy of the government and central bank interventions. It is not possible to reliably estimate the length and severity of these developments and the impact on the financial results and condition of the Corporation and its operating subsidiaries in future periods.
